Direction of View: bearing from North (0°): 140°

8.0km, T1

Camera Model and Sensor Format: Lens Make, Model and Focal Length: Height of Camera Lens above Ground (mAOD): 1.5m

Canon EOS 6D, FFS Canon EF50mm f/1.8 STM This wireframe is based upon Nextmap25 data with spot heights at 25m intervals and does not precisely model small scale changes in landform or sharp breaks in slope. The wireframe model does not allow for the screening effects of vegetation or buildings.

The model of turbine shown is similar to that proposed for the development.
